## Senco PC1010 1-Horsepower Peak, 1/2 hp running 1-Gallon Compressor review

The **SENCO PC1010 1-HORSEPOWER Peak, 1/2 hp Running 1-Gallon Compressor** is an appliance tailored to suit the inflation tasks, whether for tires or for hobby or craft inflatable.

It is also a suitable package for a variety of cleaning duties as well as a solution for nailing needs.

Around the household, it is a step ahead most compressors because it is one of the quietest operating air compressors. It has a high performance rating with a low recovery time between tasks.

Modeled in the Hotdog design, the **SENUCO** PC1010 is easy to store in the office or at home. It takes up very little space both for storage and while working.

This means that mobility during tasks is increased and one is able to navigate through smaller areas. Though light, it is a highly operating machine with a peak of 1-horsepower and up to 125 PSI while pumping air. [See details...](#)

### **Oil-free Design**

Most compressors require oil or other lubricants to keep it functioning. This oil less design means that frequent maintenance is not needed. This saves on the costs, equipment and labor. In addition, oil changing is a messy task that leaves a lot to be desired in cleaning and disposing of soiled items.

### **Ultra Quiet Operation**

The main problem faced when an air compressor is started is the noise produced. This is not only harmful but an inconvenience. *The SENUCO PC1010 1-HORSEPOWER Peak, 1/2 hp Running 1-Gallon Compressor* with its noise reduction capability makes it great to use around the house and at the same time allowing neighbors to carry on their duties without interruption.

### **Power Ability**

The SENUCO PC1010 has a 1/2 hp direct drive pump. This enables heightened efficiency in starting up and operating. With a peak of one horsepower, this appliance is able to power your needs smoothly with reduced recovery time.

This strength can be maintained making it especially useful in extended work. Air pumping tasks can be easily accomplished with the capability that allows it to pump air up to 125 PSI which covers just about any inflation need at work and at home.

The one gallon air tank makes it a versatile in tasks. It performs well when moved from one task to another. Whether it is inflating a truck's tire, then repairing the barn to inflating a craft for a child, the air compressor easily adapts to these tasks and keeps its high performance. [See details...](#)

## Portability

Some appliances lack true portability and are merely movable. SENCO PC1010 is trim and tailored to a compact hotdog style appliance. It is small in size as well as light in weight. At approximately twenty four pounds, almost anyone can carry it. For handymen, it is economical and easy to move from one site to another.

## Durability

The best part about acquiring a new appliance is knowing that another will not be required for a while. The SENCO PC1010 1-HORSEPOWER Peak, 1/2 hp Running 1-Gallon Compressor is built to last and serve for long.

With the aluminum body, corrosion and easy destruction is unlikely. As long as it is properly used and stored appropriately, the air compressor will serve for long and still look great.
